

Appendix 5. Orchids from Bosques Protectores Los Cedros and Maquipucuna

Sorted alphabetically by scientific name. Only collections identified to species are included.

The list from Maquipucuna is from the published florule of Webster and Rhode 2005.

The data from Los Cedros is published here for the first time; we include references to collections, publications and photographs.

Colors: red=critically endangered, yellow=endangered, pink=vulnerable, pale yellow=near threatened,

lilac=unique to one of the areas studied.
